

Small–Medium Business Server Platform by

BJT MULTIMEDIA

Simplified, cost effective and reliable computing

Fujitsu Primergy RX100S6 Server Platform

Optimised for Small-Medium Business (SMB), the RX100S6 server represents a price breakthrough in enterprise computing. Configured with an Intel Xeon 2.4GHz processor, 8GB RAM, and 4x 146GB hard disks configured in RAID 5 for data redundancy and supplied with a 3 year, 24 hour, 7 day warranty you can be assured your company email and documents remain safe and secure. Running the Microsoft Small Business Server 2008R2 OS, the RX100S6 will easily manage up to 75 client PCs.

Combined with BJT Multimedia's *Solution Service Agreement**, server updates and maintenance is taken care of for you remotely without the need for costly onsite visits.

From just \$6,695.00 inc GST.

(\$6,086.36 ex GST)

*Solution Service Agreement subject to contractual terms and conditions. Contact us for more information.
